R/C Modeler:

The purpose of this letter is to advise the interested Radio Control Modeler that Cannon Electronics has acquired the C & S line of R/C equipment.

Production will continue on most existing equipment in this fine line. We are also providing repair service for all existing C & S Electronics equipment, at the above address.

Several new items are being added to the R/C line, including a pulse proportional system, multi Tx and Rx kits, new digital proportional equipment, a new 3-volt superhet receiver, etc. Keep your eye on our ads in R/C Modeler Magazine.

If you are interested in R/C and would like to be on our mailing list, please fill in the form below and mail it to us.

Sincerely yours,

CANNON ELECTRONICS, INC.
