

## MICON JUNIOR ALL TRANSISTOR TRANSMITTER

Micon Junior Transmitter that you are about to put into operation has been designed to give you reliable, trouble free performance with a minimum of battery drain. This transmitter has been carefully tuned and adjusted for maximum output and has been set to operate on frequencies as allocated by the Federal Communications Commission and conforms to their latest directions.

### BATTERY INSTALLATION: -

- 1: Remove back cover by pressing in on both sides of cover and pulling it straight out.
- 2: -Refer to diagram and install batteries as shown.
- 3: -Replace back cover.

### TRANSMITTING: -

- 1: -Put switch to "ON" position. Full scale meter reading indicates that your transmitter is functioning properly. Extend Antenna to its full length.
- 2: -Press the transmitting button, the meter will move indicating that you are now transmitting. If you are using your transmitter to test your receiver at close range (up to 10' - 15') Extend the sections of the antenna above the loading coil only this will prevent swamping of your receiver with excessive signal.
- 3: -Replace the 9 Volt battery when voltage drops to 7.5V or when meter needle indicates RED when transmitter button is released.
- 4: -Remove batteries if transmitter is to be stored for any length of time.
- 5: Your Micon transmitter has been fully aligned, tested and tuned at the factory, no further adjustments are necessary.

### WARRANTY AND GUARANTEE:

Factory assembled and tested ARISTO-CRAFT Radio Control Equipment is warranted for a period of thirty days from the date of purchase. Any factory assembled and tested unit that fails to operate within this period will be repaired or replaced upon return DIRECTLY TO THE ARISTO-CRAFT CO. This warranty is void if the equipment has been tampered with, excessive voltage used, modified, used with acid core solder, or otherwise abused beyond that encountered in normal use.

Transistors and crystals cannot be guaranteed against burn-out or breakage • • If your equipment requires service PLEASE follow outlined procedure:

A: Send your equipment direct to ARISTO-CRAFT DISTINCTIVE MINIATURES, Radio Control Dept. 314 Fifth Ave. New York, N. Y. 10001. DO NOT RETURN YOUR EQUIPMENT to your hobby dealer; he is not authorized to make repairs, adjustments, or exchanges. Any commitment your dealer may make is his own responsibility and does not bind Aristo-Craft to said Commitment unless written authorization is given by Aristo-Craft.

B: Pack in a rugged container, wrap your package carefully, AND CLEARLY PRINT your RETURN name and address in the upper left-hand corner. DO NOT ship in the original packaging as it is not considered adequate for safe shipment. We cannot be held liable for damage due to poor or insufficient packaging.

C: DO NOT SEND BATTERIES OR BATTERY BOXES.

D. Send package by INSURED MAIL.

We will make every effort to return your fully repaired unit in ten days or less.
